From the date of accession, that access regime will ensure that Norway will maintain the fishing possibilities as set out in Article 44.

Article 39

1. Until the date of integration of the specific arrangements laid down in Articles 156 to 165 and 347 to 352 of the Act of Accession of Spain and Portugal into the general rules of the Common Fisheries Policy as established by Regulation (EEC) No. 3760/92, only 441 Norwegian vessels, given in Annex IV, hereinafter referred to as "the basic list", may be authorized to fish in ICES Divisions V(b), VI and VII. These adjustments may not affect the number of vessels and their allocation between each of the categories, nor bring about an increase in overall tonnage or total power for each category. Further, Norwegian vessels designated as replacements may be chosen only from among those listed in Annex V.
6. The number of standard vessels referred to in paragraph 2 may be increased on the basis of the development of fishing possibilities allocated to Norway for stocks subject to limitations on the rate of exploitation within the meaning of Article 8 of Regulation (EEC) No. 3760/92 in accordance with the procedure laid down in Article 8(4) of that Regulation.
7. As and when vessels referred to in the basic list are laid up or scrapped and deleted from the basic list after accession, they may be replaced by vessels of the same category having an engine power not exceeding that of the vessels thus deleted.

The conditions of replacement referred to in the preceding subparagraph shall apply only insofar as the capacity of the fleet of the present Member States is not increased in the Community waters of the Atlantic.

Article 140

The Commission shall authorize Austria, Finland and Norway to grant the transitional national aids provided for in Annex XIV up to the limits and under the conditions provided for therein. In its authorization, the Commission shall lay down the initial level of the aids, to the extent that it does not result from the conditions provided for by the Annex, and the rate at which they decrease.

Article 141

Where there are serious difficulties resulting from accession which remain after full utilization of the provisions of Articles 138, 139, 140 and 142, and of the other measures resulting from the rules existing in the Community, the Commission may authorize Finland and Norway to grant national aids to producers so as to facilitate their full integration into the common agricultural policy.

Article 142

1. The Commission shall authorize Norway, Finland and Sweden to grant long-term national aids with a view to ensuring that agricultural activity is maintained in specific regions. These regions should cover the agricultural areas situated to the north of the 62nd Parallel and some adjacent areas south of that parallel affected by comparable climatic conditions rendering agricultural activity particularly difficult.

2. The regions referred to in paragraph 1 shall be determined by the Commission, taking into consideration in particular:

- the low population density;
- the portion of agricultural land in the overall surface area;
- the portion of agricultural land devoted to arable crops intended for human consumption, in the agricultural surface area used.

3. The aids provided for in paragraph 1 may be related to physical factors of production, such as hectares of agricultural land or heads of animal taking account of the relevant limits laid down in the common organizations of the market, as well as the historical production patterns of each farm, but must not:

- be linked to future production;
- or lead to an increase in production or in the level of overall support recorded during a pre-accession reference period to be determined by the Commission.

The aids may be differentiated by region.

These aids must be granted in particular in order to:

- maintain traditional primary production and processing naturally suited to the climatic conditions of the regions concerned;
- improve the structures for the production, marketing and processing of agricultural products;
- facilitate the disposal of the said products;
- ensure that the environment is protected and the countryside preserved.

Article 143

1. The aids provided for in Articles 138 to 142 and any other national aid subject to Commission authorization under this Act shall be notified to the Commission. They may not be applied until such authorization has been given.

2. As regards the aids provided for in Article 142, the Commission shall submit to the Council one year after accession and subsequently every five years a report on:

- the authorizations granted;
- the results of the aid granted under such authorizations.

In preparation for drawing up such reports, Member States in receipt of such authorizations shall supply the Commission in good time with information on the effects of the aids granted, illustrating the development noted in the agricultural economy of the regions in question.

Article 144

In the field of the aids provided for in Articles 92 and 93 of the EC Treaty:

- (a) among the aids applied in the new Member States prior to accession only those communicated to the Commission by 30 April 1995 will be deemed to be "existing" aids within the meaning of Article 93(1) of the EC Treaty;
